

Excessive Sweating/Hyperhidrosis – Price List

Botox® injection is the most effective treatment for hyperhidrosis. This treatment is particularly done on the armpits (axilla) and on the palms of hands and soles of feet. At CHIC Med-Aesthetic Clinics injectable treatments are carried out by an aesthetic doctor specially trained in London to give you the best results meeting your expectations.

50 units of Botox® on each side are usually administered for optimum results.

Consultation €20 – refundable from treatment price
