

Rosacea / Red Blush Treatment - Price List

You can help reduce the signs of rosacea, and you don't have to spend valuable time and money covering it up with makeup. Laser rosacea treatment can reduce rosacea redness, and "flushing" to reveal clearer, more natural-looking skin in just a few treatments.

You can expect to see a decrease in the visible symptoms associated with rosacea after the very first treatment; however, 4 to 6 treatments at 3 to 4 weekly intervals are usually needed to achieve the best results.

Consultation	€20 (refundable from treatment price)
Each treatment session	€95

1 hour free parking at the
Malta International Airport
for every session
